

And Trilogy is so easy to install and remove, you can simply put it on or take it off whenever you want. Suddenly, you have the flexibility you need for any project or recreational activity.

Best of all, Trilogy is made with the same quality and attention to detail you've come to expect from LEER. After all, we've been a leader in the truck accessories industry for more than 40 years.

Trilogy installs securely in just minutes — no tools required — and it can be removed just as quickly and stored at home. It's your choice. So, ask yourself:

What do you need from your truck today?

FOLDING
TONNEAU
COVER
FOR THOSE
WHO WANT
IT ALL.

WHAT DO YOU NEED FROM YOUR TRUCK TODAY?

Your truck. It's one of the most practical vehicles you can own. But trucks do have their limitations. The bed is exposed to the weather and its contents are like a library—open to the public.

The Trilogy folding tonneau cover by LEER makes your truck more functional and versatile than ever before. With Trilogy, you can drive with the cover folded down to secure your truck bed. Or you can fold it back and drive with two-thirds of the bed open and accessible.

LIVE LARGER

TRILOGY BY LEER: THE SUM OF ITS GREAT PARTS

DURABLE SURFACE

The aluminum cover is constructed with a special alloy hardener and treated with a UV-resistant fluorocarbon for dent-resistance and colorfastness. The interior is filled with a dense XPS solid core formed under more than 8,000 lbs of pressure.

BEVELED EDGES

The extruded outside aluminum edges have a sleek beveled profile and are designed for nearly three times the strength compared to competitive models. Its durable powder-coating keeps the surface looking new.

DOUBLE-SEALED HINGES

At folding points, extruded aluminum hinges are double sealed to channel water to the outside edges of the truck bed and keep your gear dry underneath.

LED LIGHTS

A pair of LED lights help illuminate the interior of the bed when the cover is folded closed, making it easy to see your gear or the fast latches.

SECURE LATCH HOOKS

Latch hooks securely fasten the cover to the metal bed rail. When tightened, the latches hold the cover securely in place as you drive with the cover folded back or folded flat.

QUICK LATCHES

The quick latches secure the cover near the tailgate just by locking the lever in place. The latch hardware is threaded for easy height adjustment for a custom, secure fit.

RECESSED LATCH STORAGE

The fast latches fit into a recessed channel pocket to stay out of the way when not in use.

TIE-DOWNS

Adjustable tie-down straps can be snugged down to hold the cover securely in place when it's folded back, leaving two-thirds of the truck bed open and accessible.

EXTRA SECURITY

Your locking tailgate prevents access to latches and adds an extra degree of security.

INSTALLS IN MINUTES | NO TOOLS NECESSARY | TRAVELS IN OPEN OR CLOSED POSITION | LIGHTWEIGHT, TOUGH AND SECURE | EASILY REMOVED AND REINSTALLED
